ABOUT ME

A highly motivated and skilled Flutter Developer with over 2 years of experience in designing, developing, and maintaining cross-platform mobile applications. Proficient in Dart, Flutter, and related technologies, with a strong focus on creating visually appealing, user-friendly, and high-performance interfaces. Committed to continuous learning and staying updated with the latest industry trends. Recognized for strong problem-solving abilities, meticulous attention to detail, and exceptional teamwork and communication skills. Passionate about delivering innovative solutions that enhance user experiences and meet business objectives.

WORK EXPERIENCE

Junior Flutter Developer MaxcoreTechnologies

August 2023–Present

PROJECTS:

TIK PROMPT: Designed and developed the complete application, including UI/UX design and full API integration, ensuring smooth functionality and a user-friendly experience.

Smart Kidz: Developed an educational mobile app using Flutter, handling complete UI/UX design and Firebase backend integration. Created interactive lessons, quizzes, and gamified activities with offline support and animated components to enhance children's learning experience.

Tarqee: Designed and developed an attendance management application using Flutter, aimed at simplifying attendance tracking for organizations and educational institutions. Implemented real-time attendance logging, automated reporting, and push notifications using Firebase Cloud Messaging. Enhanced user experience with a clean, intuitive interface and role-based access control for admins and users. Reduced manual errors in attendance records by 30% through automated validation checks.

ELVE: Crafted a high-quality, conversion-focused UI/UX design for an e-commerce mobile app, emphasizing modern aesthetics, intuitive navigation, and an optimized shopping experience.

FLUTTER INTERNSHIP

MaxcoreTechnologies

May 2023 – August 2023

- Assisted in the development of mobile application, focusing on UI design.
- Gained hands-on experience with flutter, dart, and version control systems.
